	a. Specific times to be aware of your students.	
	i	
	ii	
	iii	
	iv	
1) /	V.	
IV.	Delight	

This year as you enter the classroom, consider the following:

Classroom management is shaped by what we repeatedly do. What do I need to prepare for?

Classroom culture grows out of who I am as a person and teacher. Who am I? What actions or attitudes do I need to change?

Classroom culture and management is not just a formula to follow. Instead, it requires thoughtful preparation and emotional, physical, and spiritual energy from each of us as teachers.
