

Day of 8 Billion

- Today's Date: _____
- Number Visualizations
 - Write the numeral for 8 billion: _____
 - 1 cup of uncooked rice has approximately _____ kernels. That means you would need _____ cups of rice to equal 8 billion.
 - If you wanted to spend 1 second shaking hands with every Canadian (38.25 million), it would take you 443 days (1 year & 2.5 months). Should you desire to do the same with every person on the planet, it would take you _____ days (253 years & 8 months).
- The UN estimates that the world population reached 7 billion on October 31, _____.
 - That means it grew by 1 billion people in only _____ years.
 - In that amount of time, there were only 348, 192,000 seconds. This means the population grew by about _____ people every second.

The size of the world population over the last 12,000 years

Demographers expect rapid population growth to end by the end of the 21st century. The UN demographers expect a population of about 11 billion in 2100.

Based on estimates by the History Database of the Global Environment (HYDE) and the United Nations. On OurWorldinData.org you can download the annual data. This is a visualization from OurWorldinData.org.
